ROVRAL® 4 Flowable Fungicide

For Use as Carrot Seed Treatment Only

EPA Reg. No. 264-482

EPA SLN. No. ID-940001

24(c) Supplemental Label

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF IDAHO

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. ALL APPLICABLE DIRECTIONS, RESTRICTIONS, AND PRECAUTIONS ON THE EPA REGISTERED LABEL ARE TO BE FOLLOWED. THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.

Crop/Site:	Carrot seed treatment/Idaho
Target Pest:	<u>Alternaria</u> spp.
Rate:	ROVRAL® 4 Flowable Fungicide - 16 fl. oz. / CWT
Method of Application:	Apply ROVRAL® 4 Flowable Fungicide as a slurry with enough water to insure complete coating of the seed. Allow the treated seeds to dry thoroughly before packaging or planting.
Use Restrictions:	Maximum of 1 application to carrot seeds. For use by commercial seed treaters. Do not use treated seed for any other purpose than planting. Since this product does not contain a dye, all seed treated with this product must be colored with an EPA approved dye (e.g., 40 CFR 180.1001) which imparts an unnatural color to the seed to help prevent the inadvertent use of treated seed for food, feed, or oil purposes.
Labeling	Federal law requires that bags containing treated seeds shall be labeled with the following information: "This seed has been treated with ROVRAL® brand 4 Flowable Fungicide. Do not use for feed, food, or oil purposes. Store away from feeds and foodstuffs."
